

Mount Kilimanjaro

The roof of Africa

Mt. Kilimanjaro is the highest mountain in Africa and the tallest freestanding mountain in the world, permanently covered with snow. Mt. Kilimanjaro is an extinct volcano with 3 major peaks: Kibo peak (5,895m), Shira peak (3,962m) and Mawenzi peak (5,149m). Kili can be climbed (hiked) throughout the year with our experienced guides. Put on your walking shoes and have this intense and fantastic experience!

Zanzibar

Exotic beaches, great marine life and spices

Zanzibar is an archipelago in the Indian Ocean, 25 to 50 km off the coast of Tanzania, consisting of numerous small islands and two large ones: Unguja (the main island, sometimes informally referred to as Zanzibar) and Pemba. Zanzibar is well known as the Spice Island, but also for its beautiful white beaches and fabulous marine life. It is also home of the endemic Zanzibar Red Colobus and the elusive Zanzibar Leopard.

Hot-air ballooning over the Serengeti plains

Flights by balloon take off as dawn breaks over the Serengeti. The perfect silence of the early morning plains is broken only by the soft roar of the balloon. Far below, wildebeest scatter, looking everywhere but up at the silent visitor that floats over their world. Giraffes stand next to acacia trees, a pride of lion is eating their kill, untroubled by the airborne visitors. After the thrill of landing, a champagne breakfast awaits.
